

CRYOTECH NAAC[®]

ANHYDROUS SODIUM ACETATE

SHAKER JUG

PACKAGE ADVANTAGES

ALL-IN-ONE

- Ready to use for jetways, doorways, baggage handling areas, helipads, residential use, and more

USER-FRIENDLY

- Easy to use with simple storage and application technique

MAXIMIZE PERFORMANCE

- Hinged dispensing lid has slots built-in for efficient spread pattern to maximize performance and reduce tracking
- Less product waste than other common application methods

LIGHTWEIGHT

- Each jug weighs less than 10lbs and covers 1000ft²

CONVENIENT

- Pre-packaged 4 jug cases provide similar coverage to 25kg (55lb) bag

Test Data Available Upon Request
ISO 9001:2015 & 14001:2015 CERTIFIED COMPANY

APPLICATION

- Apply early to prevent snow and ice from bonding
- Use normal stride and continuous steady sweeping motion to apply
- Shovel accumulation once bond is broken
- Re-apply when new accumulation shows first tendency to bond

PRODUCT ADVANTAGES

- AMS 1431 certified for runway use
- Chloride free
- Less damaging to concrete, steel, and vegetation than common deicers
- Safe for use around aircraft, people, pets, and vegetation
- Requires fewer applications than common deicers
- Exothermic; generating heat as it works
- Patented Unipel technology and spherical pellet shape ensure uniform size and optimal performance of each pellet

STORAGE AND HANDLING

- Store in sealed, original container with lid securely closed
- Convenient packaging is ideal for small spaces and compact storage at end of jet bridges and doorways
- Avoid excess moisture
- Preserve integrity of pellet by not overhandling

NAAC PACKAGING

- 10lb Jug/4 per case
- 55lb Bag/40 per pallet
- 2205lb Bag/1 per pallet
- Bulk
