## NAAC<sup>®</sup>40

### Shaker Jug

#### Why NAAC40?

Cryotech NAAC40 is the perfect product for high performance, minimal environmental impact and budget friendliness. Great for areas with chloride limits, NAAC40 works to lower temperatures than rock salt, starts fast and provides longer holdover, effectively fracturing snow and ice pack.

#### ALL-IN-ONE

- Ready to use for parking garages, sidewalks, walking paths, residential areas, and more

#### USER-FRIENDLY

- Ergonomic handle for easy transportation

#### MAXIMIZE PERFORMANCE

- Hinged dispensing lid has slots built-in for efficient spread pattern to maximize performance and reduce tracking
- Less product waste than other common application methods

#### LIGHTWEIGHT & CONVENIENT

- Each jug weighs approximately 10lbs and covers more than 1000ft<sup>2</sup>
- Easy to use with simple storage and application technique

#### NAAC40 PACKAGING

- 10lb Jug/4 per case
- 55lb Bag/40 per pallet
- 2205lb Bag/1 per pallet
- Bulk

## CRYOTECH NAAC<sup>®</sup>40 PRODUCT SPECIFICATIONS

### APPLICATION

- Apply early to prevent snow and ice from bonding
- Use normal stride and continuous steady sweeping motion to apply
- Shovel accumulation once bond is broken
- Re-apply when new accumulation shows first tendency to bond

One 25kg bag of NAAC40 keeps over 400 gallons of fresh water safe for aquatic wildlife when compared to 25kg of rock salt.

### PRODUCT ADVANTAGES

- Less damaging to concrete, steel, and vegetation than common deicers
- Environmentally friendly
- Requires fewer applications than common deicers
- Works best above 10° F (-12°C)
- Unique Unipel technology and spherical pellet shape ensure uniform size and optimal performance of each pellet
- Retains many NAAC benefits, such as low effective temperature

### STORAGE AND HANDLING

- Store in sealed, original container with lid securely closed
- Convenient packaging is ideal for small spaces and compact storage
- Avoid excess moisture
- Preserve integrity of pellet by not overhandling
