

CRYOTECH GLACIER RTU®

Ready-To-Use Lavatory Fluid

Why Glacier RTU Lavatory Fluid?

Cryotech Glacier RTU is a ready-to-use product, containing antifreeze that does not require mixing or dilution. Glacier RTU is safe for the environment and developed with extremely low conductivity.

BENEFITS

- Ready-to-use formula - no dilution or mixing required
- Easy to handle
- Tested to Airbus AIMS 09-00-002 Issue 3, Boeing D6-17487 (Rev. T), and Douglas CSD #3 standards
- Safe for the environment
- Cost effective

PERFORMANCE

- Provides control of objectionable odors with fresh, pleasant scent
- Rinses clean
- Formulated with extremely low electrical conductivity to protect aircraft components from corrosion

ENVIRONMENT

- Completely biodegradable
- Contains no ethylene glycol or alcohols

APPLICATION

- Stainless steel, epoxy or polyethylene lined steel, mild carbon steel, or reinforced plastic containers are acceptable
- Best practices include storing totes and drums in areas protected from weather and exposure to direct sunlight
- Non-flammable
- Safe for workers - see product SDS
- Containers must be clean and free of rust, surface deposits, and residues

GLACIER RTU[®] LAVATORY ANTIFREEZE

PRODUCT SPECIFICATIONS

COMPOSITION	APPEARANCE	SPECIFIC GRAVITY	TYPICAL pH
Aqueous solution, propylene glycol plus deodorant and corrosion inhibitors	Blue, mobile liquid, free from matter in suspension	1.015 -1.050	7.0 to 9.0
TYPICAL CONDUCTIVITY	FREEZING POINT	FLASH POINT	MISCIBILITY WITH WATER
Less than 3 mS/cm	-7°F (-21°C)	Nonflammable	Complete
BOD ₅ @20°C kgO ₂ /kg FLUID		COD kgO ₂ /kg ANTIFREEZE	
0.25		0.71	
PACKAGING			
<ul style="list-style-type: none"> • 55 gallon drums (208 liters) - 4 drum minimum • 265 gallon tote (1003 liters) - 1 tote minimum • Bulk - 4400 gallons minimum
